

# Creating Profitable Forage Systems

Co-authors of the book Southern Forages and world renowned forage experts, Dr. Gary Lacefield and Dr. Don Ball, will be presenting on the topic “Ten Keys to a Profitable Forage Program” with an emphasis on clover implementation and management. This is a rare opportunity to hear these two gentlemen speak for a very low price in Dickson County.

- Know forage options and animal nutritional needs
- Establishment is critical
- Soil test, then lime and fertilize as needed
- Use legumes whenever feasible
- Emphasize forage quality
- Prevent/minimize pests & plant disorders
- Improve pasture utilization
- Minimize stored feed
- Reduce storage & feeding losses
- Results require investments
